CRITERION III - RESEARCH, INNOVATION AND EXTENSION

3.3 INNOVATION ECOSYSTEM

INDIAN KNOWLEDGE SYSTEM

The Indian Knowledge System (IKS) is a systematic method of passing down knowledge from one generation to the next. It is an organized system and a means of knowledge transfer, not a custom. The foundation of the Indian Knowledge System consists of the Vedic literature, the Upanishads, the Vedas, and the Upvedas. The National Education Policy, often known as NEP-2020, is based on the rich heritage of ageless Indian philosophy and wisdom. India's knowledge systems, Jnan, Vignan, and Jeevan Darshan, have evolved through experience, observation, experimentation, and in-depth study. This history of validating and putting into practice has impacted education, the arts and administration. The classical languages of Bharat and other languages that were transmitted by literary, artistic, and oral traditions. Our college offers students to opt Sanskrit and Hindi as language of study in addition to Tamil. Our students celebrate Gandhi Jayanthi, Independence Day, Republic Day, and Martyrs Day with a strong sense of patriotism. Many national and regional freedom fighters have made significant contributions, which are proudly presented to and ingrained in our youth thoughts. The study of the mind, brain, and consciousness may be incorporated into IKS, along with applications from yoga classes. The mission of the Indian Knowledge Society (IKS) is to advance multidisciplinary research on all facets of "Indian Knowledge Systems," as well as to conserve and spread the term for future study and social uses.
